Última oportunidad para inscribirte en el Payments Management Lab — Live en Ciudad de Panamá, 18-21 de mayo 2026. 📅

Avanza en tu carrera profesional mientras disfrutas del proceso en este evento presencial de cuatro días, donde vivirás una combinación de conversaciones lideradas por expertos, networking y aprendizaje práctico.

Uno de los principales atractivos del evento es su simulador competitivo, en el que tú y un equipo de profesionales del sector competirán para construir el portafolio de pagos más rentable en un entorno realista y dinámico.

Novedades 2026: el simulador evoluciona para incorporar temas clave como stablecoins e inteligencia artificial, preparándote para los desafíos reales del ecosistema de pagos.

El cupo es limitado; reserva tu lugar hoy. La inscripción finaliza el 8 de mayo de 2026: <https://lnkd.in/gpfeRkh8>

📍 Last chance to join us in San Francisco for our Dispute Resolution I course on 23-24 March. 📍

In this in-person course, you'll explore the end-to-end dispute process within the Visa payments ecosystem. You'll receive a comprehensive overview of the transaction lifecycle, dispute categories and conditions, fraud types and Visa Rules, giving you the knowledge you need to confidently assess, process and resolve disputes.

Act fast – enrollment closes 3 March.

Register now: <https://lnkd.in/gae6tVd5>

There's still time to save 15% when you sign up for Digital Payments Catalyst — enroll by 17 July to receive the discounted price.

Delivered by two world-class organizations, Wharton Online and Visa, Digital Payments Catalyst is a seven-week program featuring video lectures, articles, activities, discussions, live webinars and more to help you stay ahead in our ever-evolving industry.

We've updated the program with an "Agentic AI in Digital Commerce" learning path, where you'll gain a comprehensive understanding of how AI agents are transforming digital commerce. You'll explore the current state and future potential of Agentic AI, what it means for your organization and practical strategies for implementation. You'll also cover key applications, challenges and best practices for integrating Agentic AI into your digital commerce initiatives.
